PROFILE

Experienced Site Reliability Engineer with a background in Computer Science, specializing in soft computing. Proficient in ensuring reliability, scalability, and performance of cloud-based applications through collaboration with development and operations teams. Expertise in AWS infrastructure management, DevOps tools, and implementing security best practices. Skilled in incident management, root cause analysis, and driving continuous improvements to enhance system resilience and efficiency.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services

SRE DevOps Engineer

July 2021 - Present

- Engineered, deployed, and maintained AWS infrastructure, including EC2, S3, ECS, EKS, ACM, and Microsoft AD; **achieved a 30% improvement in system reliability and efficiency**, enhancing overall operational performance.
- Orchestrated Kubernetes and AWS ECS clusters using Terraform, **achieving a 15% improvement in deployment reliability and scalability**, while managing resources for optimal performance and cost-efficiency.
- Utilized Terraform for automated infrastructure provisioning and management, **reducing deployment time by 30% and maintenance effort by 25%**.
- Implemented Jenkins pipelines to facilitate migration from AWS CodeCommit to Bitbucket with **increase in performance by 15%**.
- Assessed incident responses, conducted root cause analyses, and performed post-incident reviews which **enhanced system resilience by 17%**.
- Managed and optimized Docker containers in production environments which enhance the **efficient resource utilization and performance by 38%**.
- Diagnosed and resolved issues related to EKS, ECS, Jenkins, and server connectivity, **improving system reliability by 20%** through monitoring and optimization techniques.
- Developed an online learning portal with Python Flask and implemented CI/CD pipelines in Azure DevOps, achieving a 35% reduction in build times and enhancing deployment reliability using Docker and Kubernetes on Azure VMs.
- Tech Stack: **AWS, Terraform, Git, Jenkins, Windows Active Directory, Docker, Kubernetes, Ansible, OpenShift, Concourse, ArgoCD, Bitbucket, Jira, ServiceNow.**

SKILLS

- Cloud:** AWS Infrastructure Management and Azure DevOps service.
- Programming language:** Python and bash scripts
- DevOps Tools:** Ansible and Jenkins, Docker, Kubernetes, Git Version Control, Putty, Bitbucket and IAC - Terraform and Confluence
- Incident Management:** - JIRA, ServiceNow, CallOneIT.

CERTIFICATIONS

- CKA - Certified Kubernetes Administrator**
- Terraform Associate 002**
- AWS Solution Architect - Associate SA-C03**
- Database Management System course: Accredited by IIT Kharagpur
- SSC NASSCOM Foundation AI curriculum

EDUCATION

- **Master of Science 2019 - 2021:** Cochin University of Science And Technology
Computer Science with Specialization in Soft Computing
 - **Bachelor of Science 2016 - 2019:** Farook College Autonomous, University of Calicut
Computer Science
-

POSITIONS OF RESPONSIBILITY

- **SPOC for application transitions at TCS**
 - Represented the project for **AWS resiliency competency badge** for TCS
 - Placement coordinator at CUSAT Department Of Computer Application
 - Hostel Secretary for Sanathana Mens Hostel CUSAT
 - Petty Officer Cadet in National Cadet Corps Navy
 - School Unit Leader for National Service Scheme
-

ACHIEVEMENTS

- Cochin University of Science and Technology - **University Second Rank holder** in MSc Computer Science 2019-2021
- Ranked 523rd at All India level Indian Super Brain Competition. A four-week contest covering diverse fields such as Web development Cybersecurity, ML and DBMS.
- Represented NCC Kerala Contingent in All India Advance Leadership camp at Trichy.
- NCC 'B' and 'C' certificate holder with 'A' grade.
- Men's Doubles Badminton Winner CUSAT University Championship
